<td><strong>Vendor:</strong> EBSCO Industries Inc.</td>
<td>EBSCO Industries serves as an agent to 500-600 publishers worldwide for access to electronic journal content. This content is licensed on behalf of WSU Libraries and the other academic libraries they serve. They are the primary agent for academic libraries in the U.S., which is why we use this vendor. They are able to negotiate deals with the publishing companies we need to get journals and databases from and prevent us from using staff time and resources to broker these deals individually. We have been contracting with them for about the last 7 years after former agent vendors have gone out of business or sold to EBSCO.</td>
