MASKS ARE STRONGLY ENCOURAGED

JUSTIN HALL

**Comic Artist, Scholar, & Professor of Comics at
California College of the Arts**

Fascinated by how words and pictures combine to create new narrative possibilities?
Love reading comics but unsure of how to approach the material from a critical
perspective?

Surprised by how malleable time and space are on the comics page and how the “gutters”
(the spaces between the panels) draw in the reader? Intrigued by how comics theory can
point the way to understanding a host of new media?

Then this is the workshop for you! Join comic book creator and scholar Justin Hall as he
makes the case for why comics are the coolest storytelling medium ever.
