F. CORE Review and Alignment update

G. Statement of the Faculty Budget Priority Committee

The Faculty Budget Priority Committee (FBPC) is charged with "requesting information from the university budget director and administration," "examining all fiscal affairs of the university" and "[r]ecommending fiscal priorities to the Faculty Senate and university administration. In the past, the FBPC has received detailed operating budgets that allowed the committee to satisfy its charge. Despite this data being made available in the past, the committee has been told by the budget office that such a budget is not available for review; the committee is therefore only able to see master budgets, which do not provide significant enough detail to fully assess and make recommendations about priorities to the administration. The committee wishes to express its hope that such data will be made available to the committee. The committee is hopeful that they can receive more information from budget and welcome them to attend.
