

BOARD OF TRUSTEES

APPROVAL OF THE RONALD D. BULLOCK INNOPRENEURSHIP LABORATORY

RESOLUTION 23-XX

WHEREAS, in December 2014, as part of the Rise.Shine Campaign, Ronald D. Bullock, class of 1970, established a gift commitment in support of Engineering Design and Innovation Learning; and

WHEREAS, \$1 million of the gift, attached with naming rights, was designated to renovate the lower level of the Fritz and Delores Russ Engineering building to create lab space for students to conceptualize, prototype, design, and build projects; and

WHEREAS, this cutting-edge lab space will bridge the gap between classroom theory and true engineering practice, providing students with both the creative space and the equipment necessary for the hands-on engineering experiences that are required to take their ideas from concept to market; therefore, be it

RESOLVED that the lower level of the Fritz and Delores Russ Engineering Center be named the Ronald D. Bullock Innopreneurship Laboratory.
