Curricular Content Changes

- Course Deactivations = 199
- Program Inactivation = 10
 - Minor
 - History and Philosophy of Science Minor (HPS) - HPS
 - Medical Humanities and Health Studies Minor (MHHS) - MHHS
 - Baccalaureate
 - Integrated Human Services, BS
 - This program is being inactivated due to low enrollment and low graduation rates.
 - Media Studies, BA
 - The independent Media Studies major has been integrated as a concentration into the Communication major. Levels of student interest did not justify the additional resources that would be required to offer a stand-alone degree program in Media Studies, particularly after the loss of faculty teaching in that area. In addition, the program in Media Studies was previously more closely linked with traditional forms of journalism, whereas we are seeking to modernize the Communication degree by incorporating Artificial Intelligence and also exploring collaborations with Motion Pictures in the area of digital media.
 - Sports Science, BSEd
 - This program has been replaced by splitting it into two new degree programs. The former Sports Science, BSEd -- Health and Fitness Concentration has been replaced by the Exercise Science, BS program. The former Sports Science, BSEd -- Sports Medicine Concentration has been replaced by the Health Sciences, BS program.
